20-Jun	9:15-9:45	Open Session: Advancing equity, diversity, inclusion and accessibility in scholarly communications Part 1	30 mins	Presentation	Leanne Coughlin		In recent years, great progress has been made towards increasing equity, diversity, inclusion, accessibility, and decolonisation (EDIAD) in all aspects of scholarly communications but a number of challenges remain. At the 2013 Canadian Association of Learned Journals annual conference, members of the Coalition for Diversity & Inclusion in Scholarly Communications (C4Disc) presented their recently completed Toolkits for Equity. These Toolkits are training materials that were developed for scholarly publishers and journals to help transform workplaces and organizational cultures. As a follow-up to last year's session, this year we will be exploring how these toolkits and other initiatives have helped to transform EDIAD initiatives in the scholarly publishing community. The discussion will focus on success stories, remaining challenges, and a discussion of what the future holds for improving EDIAD within our scholarly communications communities.
